

Session Program

19–20 Jan 2021

IceCube Polar Science Workshop

Future glaciological instrumentation at the South Pole (IceCube Upgrade, RAID and beyond)

Wednesday 20 January

18:15

Future glaciological instrumentation at the South Pole (IceCube Upgrade, RAID and beyond)

Session | Location: <https://wipac-science.zoom.us/j/2571243724?pwd=c0pOcDF0Q09PVXFuWGd1SENib25jQT09> | Convener: David Besson

18:15–18:35 A very broadband seismometer in the IceCube Upgrade

Speaker

Dr Robert Anthony

18:35–18:55 The Ice Diver Dust Logger

Speaker

Ryan Bay

18:55–19:15 Optical televising of ice-mass boreholes

Speaker

Bryn Hubbard

19:15–19:35 A Gen-2 calibration borehole with the U.S. Rapid Access Ice Drill (RAID)?

Speaker

Jeff Severinghaus

19:35
