

Session Program

19–20 Jan 2021

IceCube Polar Science Workshop

SPICEcore physical properties, hole lifetime and logging

Wednesday 20 January

15:00

SPICEcore physical properties, hole lifetime and logging

Session | Location: <https://wipac-science.zoom.us/j/2571243724?pwd=c0pOcDF0Q09PVXFuWGd1SENib25jQT09> | Convener:
Tun Jan
Young

15:00–15:20 Inclination data from sensors in the South Pole ice

Speaker

Delia Tosi

15:20–15:40 Borehole deformation at the South Pole

Speaker

Emilie Sinkler

15:40–16:00 Physical properties of the South Pole Ice Core, SPC14

Speaker

Richard Alley

16:00–16:20 Assessing the utility of dynamic particle imaging in South Pole Ice Core dust analysis

Speaker

Aaron Chesler

16:20
