

# IPA 2013

## Tuesday 14 May 2013

### Accelerator-Based Neutrino Physics III: Zelimir Djurcic / Teppei Katori, co-convenors (16:00 - 17:30)

| time  | [id] title                                                                        | presenter               |
|-------|-----------------------------------------------------------------------------------|-------------------------|
| 16:00 | [41] MiniBooNE: current evidence for neutrino oscillations and a future test      | TAYLOE, Rex             |
| 16:25 | [40] A Future Coherent Elastic Neutrino-Nucleus Scattering Experiment at Fermilab | Dr COOPER, Robert       |
| 16:45 | [37] Status of MicroBooNE                                                         | IGNARRA, Christina      |
| 17:10 | [73] Recent Results from the Fermilab MIPP Experiment and Future Nitrogen Run     | Prof. SOLOMEY, Nickolas |
