

Session Program

26-28 Sept 2013

Cosmic Ray Anisotropy Workshop 2013

Modeling the Lyman-alpha backscatter observed by Voyager 1 and 2 in the outer heliosphere and the structure of the heliospheric bow shock - Gary Zank, U of Alabama-Huntsville

Union South, UW-Madison
1308 West Dayton Street, Madison, WI 53706

Saturday 28 September

10:45

Modeling the Lyman-alpha backscatter observed by Voyager 1 and 2 in the outer heliosphere and the structure of the heliospheric bow shock - Gary Zank, U of Alabama-Huntsville

Session | **Location:** Union South, UW-Madison, Northwoods, 1308 West Dayton Street, Madison, WI 53706

10:45-11:15

Modeling the Lyman-alpha backscatter observed by Voyager 1 and 2 in the outer heliosphere and the structure of the heliospheric bow shock

Speaker

Dr Gary Zank

11:15
