

# ARENA 2014

## Monday 9 June 2014

### Mon AM II: Acoustic - chaired by Rolf Nahnauer (10:50 - 12:40)

time	[id] title	presenter
10:50	[44] Lake Baikal acoustic neutrino activities	Prof. BUDNEV, Nikolay
11:15	[43] Status and Recent Results of the Acoustic Neutrino Detection Test System AMADEUS of ANTARES	Dr LAHMANN, Robert
11:40	[7] Simulation chain and signal classification for acoustic neutrino detection in sea water	Mr KIESSLING, Dominik
12:00	[0] Recent developments in the construction of a line array projector for the calibration of Acoustic Neutrino Telescopes	Prof. DANAHER, Sean
12:20	[38] Fiber based hydrophones for ultra-high energy neutrino detection	Dr LAHMANN, Robert
